PRODUCT: AVUS7685 DOUBLE SIDED TAPE

Section 01: Chemical product and company identification

Product name................................................ AVUS7685 DOUBLE SIDED TAPE
Manufactured for........................................... Aftermarket Auto Parts Alliance, Inc
2706 Treble Creek, Suite 100
San Antonio, TX 78258
24 hour emergency number:.......................... IN CANADA CALL CANUTEC (613) 996-6666-IN THE UNITED STATES CALL CHEMTREC (800) 424-9300.
Material use................................................ Automotive.
Chemical family............................................ Article.
Preparation date............................................ November 4, 2014.
Hazard rate.................................................. H:0 F:0 R:0.
NFPA rating.................................................. Health: 0 Fire: 0 Reactivity: 0.

Section 02: Hazards identification

Signal Word................................................... Not a classified or a controlled product.

Section 03: COMPOSITION/INFORMATION ON INGREDIENTS

Section 04: First aid measures

Eye contact................................................ In case of contact, immediately flush eyes, keeping eyelids open, with plenty of water for at least 15 minutes.
Skin contact............................................. Wash slowly with lukewarm water.
Inhalation.................................................. Not applicable.
Ingestion................................................... Not applicable.
Additional information................................ Not applicable. In the event of an incident involving this product ensure that medical authorities are provided a copy of this safety data sheet.

Section 05: Fire fighting measures

Extinguishing media.................................... Use extinguishing media for surrounding fire.
Hazardous combustion products......................... Oxides of carbon (CO, CO2).
Special fire fighting procedures....................... Firefighter should be equipped with self-contained breathing apparatus and full protective clothing to protect against potentially toxic and irritating fumes. Solvent vapours may be heavier than air and may build up and travel along the ground to an ignition source, which may result in a flash back to the source of the vapours. Cool fire-exposed containers with cold water spray. Heat will cause pressure buildup and may cause explosive rupture.

Section 06: Accidental release measures

Leak/spill.................................................. Pick up solids and put in a dust bin.

Section 07: Handling and storage

Handling procedures.................................... Employees should wash hands and face before eating or drinking. Keep away from heat, sparks, and open flame.
Storage needs............................................. Keep container closed when not in use. Store away from oxidizing and reducing materials. Store away from sunlight.

Section 08: Exposure controls / personal protection

Protective equipment
Eye/type.................................................. Not applicable.
Respiratory/type........................................ Not applicable.
Gloves/ type............................................ Not applicable.
Clothing/type........................................... Not applicable.
Footwear/type.......................................... Safety boots per local regulations.
Other/type.............................................. Educate and train employees on the safe use and handling of the product.
Ventilation requirements................................ None required under normal use.
Exposure limits

Section 09: Physical and chemical properties

- Physical state: Tape.
- Colour: (prolonged storage may lead to discolouration.).
- Odour: Slight.
- Odour threshold (ppm): Not applicable.
- Vapour pressure (mm Hg): Not applicable.
- Vapour density (air=1): Not applicable.
- pH: Not applicable.
- Specific gravity: Not applicable.
- Boiling point (deg C): Not applicable.
- Solubility: Not applicable.
- Freezing point (deg C): Not applicable.
- Evaporation rate: Not applicable.
- Flash point (deg C), method: Not applicable.
- Auto ignition temperature (deg C): Not applicable.
- Upper flammable limit (% vol): Not applicable.
- Lower flammable limit (% vol): Not applicable.
- Coefficient of water/oil distribution: Not applicable.
- VOC: No data.
- Viscosity: Not applicable.

Section 10: Stability and reactivity

- Stability: Stable at normal temperatures and pressures.
- Reactivity conditions: Avoid heat, sparks and flames. Explosive reactions can occur in the presence of strong oxidizing agents.
- Incompatibility: Keep away from heat. Incompatible with strong oxidizers.
- Hazardous products of decomposition: Oxides of carbon (CO, CO2).
- Hazardous polymerization: Will not occur under normal temperature and pressure.

Section 11: Toxicological information

- Route of entry: Not expected to pose any hazards.
- Effects of chronic exposure: Not applicable.
- Skin contact: Possible irritation upon direct contact.
- Eye contact: No hazard known.
- Inhalation (chronic): Not applicable.
- Ingestion: Not a likely route of exposure.
- Carcinogenicity of material: Not applicable.
- Reproductive effects: Not applicable.

Section 12: Ecological information

- Biodegradability: No data.

Section 13: Disposal considerations

- Waste disposal: Dispose of waste in accordance with all applicable Federal, Provincial/State and local regulations.

Section 14: Transport information

- TDG Classification (Road): Not regulated.
- DOT Classification (Road): Not regulated.
- IATA Classification (Air): Not regulated.
- IMDG Classification (Marine): Not regulated.
Section 14: Transport information

Marine Pollutant: No.
Proof of Classification: In accordance with Part 2.2.1 of the Transportation of Dangerous Goods Regulations (July 2, 2014) - we certify that classification of this product is correct.

Section 15: Regulatory information

WHMIS classification: This product is not regulated under WHMIS. This SDS is provided as a customer service.

Section 16: Other information

Prepared by: REGULATORY AFFAIRS.
Telephone number: (800) 387-7981.
Disclaimer: All information appearing herein is based upon data obtained from experience and recognized technical sources. To the best of our knowledge, it is believed to be correct as of the date of issue but we make no representations as to its accuracy or sufficiency and do not suggest or guarantee that any hazards listed herein are the only ones which exist. The hazard information contained herein is offered solely for the consideration of the user, subject to his own investigation and verification of compliance with applicable regulations, including the safe use of the product under every foreseeable condition. The information relates only to the product designated herein, and does not relate to its use in combination with any other material or in any other process.
